

Table of Contents

Preface	iii
Marine Bacteria and Localized Corrosion on Polymer Coated Steel <i>B. Little, R. Ray, J. Jones-Meehan C.C. Lee, and F. Mansfeld</i>	1
Insights into Biofouling and Microbiologically Influenced Corrosion <i>P.M. Natishan, J. Jones-Meehan, G.I. Loeb, N. Gray, B.J. Little, R. Ray, and M. Beard</i>	13
The Effect of Ozone on the Corrosion Behavior Of Passive Alloys in Seawater <i>B.E. Brown, W.E. Wyllie II, and D.J. Duquette</i>	23
Wear Resistant Coatings Deposited by PSII and PIIP for Use as a Barrier to Marine Corrosion <i>R.S. Lillard, T.N. Taylor, K.C. Walter, X.M. He, M. Nastasi</i>	35
Atmospheric Corrosion Monitoring of Steels in Marine Environments <i>A. Nishikata, A. Yamada, and T. Tsuru</i>	44
Difference in Corrosion Behavior Between Pure Iron and Carbon Steel after Short-Time Exposure Test <i>H. Katayama, K. Noda, M. Yamamoto, and T. Kodama</i>	60
Corrosion of Carbon Steel in Natural Waters with High Content in Salts <i>L. Bousselmi, C. Fiaud, B. Tribollet, and E. Triki</i>	69
Kelvin Probe Measurement on Potential Distribution of Steels During Marine Atmospheric Rusting Process <i>A. Araoka, A. Nishikata, and T. Tsuru</i>	78
Effect of Sodium Chloride on Corrosion Behavior of Low Alloy Steels in Wet and Dry Condition <i>T. Nishimura, T. Kodama, and K. Kurosawa</i>	87
Corrosion Behavior of 55% Al-Zn Coated Steel Under Wet-Dry Cyclic Conditions <i>G.A. El-Mahdy, A. Nishikata, and T. Tsuru</i>	97
Corrosion Protection of Marine Steel Structures for Very Long Service Using Titanium-Clad Steel <i>K. Matsuoka, H. Kihira, S. Ito, K. Kinoshita, and M. Yamada</i>	107
Exposure Tests of Organic Coated Steel Pipe Piles in Tropical Marine Environments <i>Y. Harada, S. Miyata, M. Yoshida, K. Takeda, and S. Nishizawa</i>	119

Development of Weathering Steel for Coastal Atmosphere <i>H. Kihira, A. Usami, K. Tanabe, M. Ito, G. Shigesato, Y. Tomita, T. Kusunoki, T. Isuzuki, S. Ito, and T. Murata</i>	127
In-Situ Evaluation of Protective Ability of Artificially-Controlled Rust Layers on Low-Alloy Steel in Saltwater Environment <i>M. Yamashita, H. Uchida, and H. Miyuki</i>	137
Atmospheric Corrosion Process of Ferritic Alloys Under Seashore Environment <i>K. Noda, M. Yamamoto, H. Masuda, and T. Kodama</i>	144
Corrosion Electrochemistry of Fe, Ni, and Fe-Ni Alloy in Chloride Media <i>N.L. Nguyen and K. Nobe</i>	152
Localized Corrosion Behavior of Nitrogen-Bearing 316L Steels in Saltwater <i>T. Kodama, H. Uno, H. Baba, and Y. Katada</i>	164
Thermal Stability and Aging Characteristics of Chromate Conversion Coatings on Aluminum Alloy 2024-T3 <i>V. Laget, C. Jeffcoate, H.S. Isaacs, and R. Buchheit</i>	173
Electrochemical Behavior of Metallic Chromium in Chloride Medium <i>G.C. Silva, M.C. Vilchenski, P.T.A. Sumodjo, and A.V. Benedetti</i>	183
Corrosion Behavior of the Al-Zn sprayed Open Rack Vaporizer in Sea Water <i>I. Hashimoto, T. Tanaka, J. Hisamoto, K. Shinkai</i>	193
Copper Dissolution Phenomena in Al-Cu and Al-Cu-Mg Alloys <i>R.G. Buchheit, R.K. Boger, and M.W. Donohue</i>	205
Application of a Submerged Impinging Jet to Study Corrosion of Steel in Brine Saturated with CO ₂ <i>J.C. Cardoso Filho and M.E. Orazem</i>	213
Investigation of Control Measures for Galvanic Corrosion <i>D.A. Shifler</i>	227
In Search of the Cause of "Activation" of Aluminum/Zinc Sacrificial Anodes <i>J.N. Murray, R.A. Brizzolara and D.C. Hansen</i>	239
Modeling and Comparison with Measurements of Chloride Ion Transport in Coastal Concrete to Predict the Onset of Reinforcement Corrosion <i>C.B. Shin, E.K. Kim, and W. Cho</i>	255
Identification of the Mechanism for Copper Local Activation in Hydrocarbonate Solutions on the Basis of Temperature Effects <i>S.A. Kaluzhina, I.V. Kobanenko, V.V. Malygin, and I.E. Ryzhkova</i>	266

Localized Corrosion of 316 Stainless Steel in Supercritical Water Containing NaCl	276
<i>H. Kim, C.P. Özden, Y. Kurata, and N. Sanada</i>	
Electrochemical Noise for the Quantification of Stainless Steel Resistances to Pitting Corrosion	286
<i>T. Sourisseau, B. Baroux, P.R. Roberge</i>	
Index	295
