

Environmental Aspects of Electrochemical Technology

Table of Contents

Electrochemical Treatment and Minimization of Defense-related Wastes <i>G. Pillay, S. Billingsley, and J. Balkey</i>	1
Radiological Decontamination of Ferrous Metal Items Through Electrochemistry <i>D. Wedman, K. Weisbrod, J. Lugo, Y. Rivera, and J. Lloyd</i>	15
The CerOx Process: Electrochemical Destruction of Organic Hazardous Wastes <i>N. Nelson and G.A. Steward</i>	25
Electrochemical Decomposition of CFCs by Using Metal-Supported Gas Diffusion Electrode <i>N. Sonoyama and T. Sakata</i>	37
A Study on the Optimization of the Mediated Electrochemical Incineration of Glucose <i>A. De Battisti, S. Ferro, F. Lavezzo, G. Lodi and S. Osti</i>	49
Electrochemical Treatment of Organic Wastes by Mediated Electrochemical Oxidation <i>Y.H. Chung and S.-M. Park</i>	67
Cooperative Decomposition of Trichlorotrifluoroethane by Microwave-Induced Plasma and Catalyst under Atmospheric Pressure <i>M. Horiguchi, T. Hyodo, Y. Takao, Y. Shimizu, and M. Egashira</i>	75
Gas-Phase Photocatalytic Degradation of PCE in the Underground Water and Soil <i>M. Murabayashi, K. Itoh, K. Okamura, H. Yamazaki, and T. Yoshida</i>	85
Electro-Osmotic Remediation of Fine-Grained Sediments <i>N. Cherepy, W. McNab, D. Wildenschild, R. Ruiz, and A. Elsholz</i>	97

Japanese Hydrogen Program "WE-NET": Vision and Status <i>K. Okano</i>	111
Development of 2500cm ² Five-Cell Stack Water Electrolyzer in WE-NET <i>M. Yamaguchi, T. Shinohara, H. Taniguchi, H. Nakanori, and K. Okisawa</i>	131
Penetration of P, S, O into the Pt Anode and its Consumption under Electrolysis in the Concentrated Acidic Media <i>N. Kamiya, E. Nishi, N. Motohira, and K. Ota</i>	143
Important Parameters for Electrodialytic Removal of Heavy Metals from a Polluted Soil Matrix <i>L.M. Ottosen, A.B. Ribeiro, H.K. Hansen, B.K. Kliem, L. Hansen, and G. Beck-Nielsen</i>	151
Electrolytic Ozone Generation in Aqueous Solutions <i>K.I. Ota, T. Kikuchi, T. Adachi, N. Motohira, and N. Kamiya</i>	163
Electrochemical Reduction of Carbon Dioxide at a Pt Electrode in Acetonitrile - Water Mixtures <i>Yugo T., Seiyu T., Osamu K., and Yoshio H.</i>	175
Electrochemical Reduction of CO ₂ in Methanol + Water Under Ultrasonic Irradiation <i>K. Ohta, T. Kakuta, S. Kaneco, and T. Mizuno</i>	183
Applications of Electro-Osmotic Transport in the Processing of Textiles <i>J.F. Cooper, R. Krueger, R. Hopper and N. Cherepy</i>	189
Thermodynamic Calculation for Evaluating Potential Release of Toxic Elements from Compound Solar-Cell Modules during Fires <i>M. Sakata, M. Kurata, and Y. Ohno</i>	201
Mathematical Modeling of Trickle-Bed Cathode with Variable Wettability for On-Site Electrochemical Production of Hydrogen Peroxide <i>M. Sudoh, M. Yamamoto, T. Kawamoto, K. Okajima, and N. Yamada</i>	207
Electrolytic Oxidation Treatment of Dye-Containing Colored Waste Water Using Solid Polymer Electrolyte Membrane <i>M. Yamane, S. Murakami, S. Takeda, Z. Siroma, and S.-i. Wakida</i>	219

Electrochemical Production of Sodium for the Modification of Aluminium in Foundries <i>R. Copcutt, D. Fray, and J. Dekeyser</i>	225
Appendix: Honolulu S1 Symposium Program	233
